MORTISE

(Unit:mm)

Manual knob to extend and retract the secure deadbolt. It increases the security level of the door lock with double lock extend.

C grade cylinder protects the lock from technical unlocking for at least 270mins.

Semiconductor fingerprint scanner, 0.3sec collection rate and less than 0.01% recognition fault.

It works stably in aggressive environments. (-15~60°C , 20%-95% humidity)

If the battery power is running low, an automatic alert is activated via a red light that is displayed when unlock.

This signal is given months before the battery needs to be replaced.
