

Z7A

PRODUCT PARAMETERS

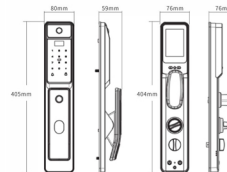

Technical Parameters:

Power supply: lithium battery
 Battery life: Over 3000 times
 Static current: <70 uA
 Dynamic current: <2 A
 Storage temperature: -20 - + 60°C
 Storage humidity: 10-98% RH
 Working temperature: -10- + 0°C
 Working humidity: 15-98% RH
 Card reading distance: 0-5cm
 Reading & writing time: <0.25s
 Date keeping: Over 10 years
 Reading & writing way: Non-touched closer induction

Features:

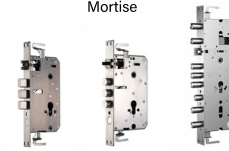

1. Material: Aluminium alloy;
2. Finish: Black, Coffey gold
3. App function: fingerprint, password, card, mechanical key;
4. Fake password prevents your password being peeped;
5. Low power alarm, Anti-tampering alarm;
6. System locks for 3mins after 5 continuous wrong input;
7. Imported PHILIP chip, anti-cloning and high security;
8. User capacity:360, passwords + cards + fingerprint + app
9. Mechanical key unlocking is available for emergency;
10. One time password is available;
11. Voice navigation makes lock setting easy to finish,
12. With door bell on the lock;
13. 2000 unlocking records can be check,
14. Automatic unlocking and locked,
15. 360° smart camera viewer
